“We cannot always build the future for our youth, but we can build our youth for the future”.

These prophetic words by Franklin Roosevelt aptly describe our aim at “Mewar Institute”. Beyond providing a sound education, we wish to provide our students a holistic learning experience for life. Our aim is to teach students to LEARN, not just STUDY. Hence, we strive to travel beyond the boundaries of mere books. We have realized that the future is abstract and unknown but the youth in our hands are real and can be moulded.

The students are the nation-builders. The knowledge that they will gain, the fine qualities that they will imbibe and the skills that they will learn to apply will be their major contribution to parents, to society and to the nation.

Best wishes.

11th March 2023-Sangoshthi on the issue of Kashmir

“Use of force cannot bring permanent solution for the Kashmir issue. It has to come through dialogue between the concerned parties\stakeholders. Cordial relations between India and Pakistan is also a sin-qua-nun for solution of this long pending issue. It is very essential for peace in the valley that all the stakeholders should be brought to the table for a discussion on various issues including Article 370 wherein the correct position should be explained and the hatred that is being spread by the divisive forces has to be stopped. The finding of the political solution to this issue is certainly urgently needed but it is equally important that we have to assuage the wounded feelings and sentiments of the public there”. Dr. Ashok Kumar Gadiya, chairman of the Institute and author of the book on Kashmir expressed the above opinion in the virtual sangoshthi that was organized by the Institute in collaboration with Prabhas Parampara Nyas.

Dr. Gadiya who is familiar with the ground realities of Kashmir further observed that the government should try to explore the new and adequate means of employment in Kashmir by developing the conventional industries and by establishing units with the state of the art technology to fulfill the aspiring needs of the population in the valley. In the schools and colleges in our country the history of Kashmir before and after 1947 should be a part of curriculum. With this a clear picture will emerge that Kashmiri culture was never in favor of hardliners and violence. The rishi-sufi tradition of Kashmir must be revived and there should be an immediate dialogue between displaced Kashmiri Brahmins and Muslims. Dr. Gadiya appealed to central Govt. that there should be sincere efforts to rehabilitate all those Kashmiri Brahmins who want to return and once again settle there. Dr. Alka Agarwal, director of the Institute presided over the meeting.

21st March 2023-Guest Lecture on Medical Jurisprudence

inquests, licencing agencies, boards of inquiry or certification, or other investigative organizations. Doctors in most countries are required by law to certify individuals for workers' compensation or other national insurance plans, the occurrence of birth or the cause of death, to report any cases of specified infectious diseases to the authorities, and to determine when mentally disturbed individuals need to be detained to protect themselves or others.

He further asserted that when physicians appear in court to testify about what they have seen, they are subjected to the same restrictions that apply to other witnesses. As the discipline evolved, the medical practitioner/doctor gained enormous authority thereby playing a critical role by providing expert opinions in cases. Medical practitioners would have to be steadfast in their efforts to resuscitate and restore the profession to its lofty ethical ideals of patient care and suffering reduction. A vote of thanks was proposed by Mr. Shiv Shankar Maurya, Head, Department of BA. LLB (5 Years)
